
CLINICAL INTERVENTIONAL NEURORADIOLOGY (CINR) COURSE

MODULE 2 - ISCHAEMIC STROKE, SEP 29- SEP 30, 2022

You are invited to a Clinical Interventional Neuro Radiology (CINR) course in Liverpool organised by The Walton Centre for Neurology and Neurosurgery.

This course is aimed at Speciality Trainees (ST), Fellows/Registrars in Interventional Neuroradiology. We will review high yield areas in this sub speciality. We aspire to provide the knowledge that is necessary for a strong foundation during the early years of training/practise in this complex field. The course faculty involves an entire multi-disciplinary team that are involved throughout the journey of a typical Neurovascular patient.

The numbers are limited to 25, with 5 spaces allocated to allied health professionals including radiographers, specialist nurses and aspiring doctors relevant to this speciality.

RCR CPD Points applied for.
